EXPERIENCE

Full Stack Developer & Owner Feb. 2018 – Present

Franklin Court Press, Inc. *New York City, New York*

- Created and deployed a responsive landing page with a contact form that utilizes SendGrid.
- Reduced workflow by automating PDF tasks such as hyperlinking and bookmarking as well as adding text to the page such as page numbers and document headers.
- Implemented a Mozilla / Chrome extension which allows users to download and organize court documents.

Freelance Front End Developer Jan. 2020 – Present

Union Gables Inn *Saratoga Springs, New York*

- Modernized / migrated a sluggish WordPress application to GatsbyJS.
- Created and published an npm package which contains React components usable on the front end and in the Sanity CMS

Duty Manager May 2008 – May 2018

Garden City Recreation/Pool *Garden City, New York*

- Managed up to 50 employees during a shift while overseeing maintenance, cleanliness, and efficiency.
- Handling customer and employee issues and ensuring that security and safety regulations are met.

PROJECTS

Mock Critical | *React, Enzyme*

- Recreated a clothing store's landing page using mobile first development practices.
- Automated unit and integration tests with Enzyme.

Another To-do List | *React, Express, Authentication, MongoDB*

- Developed a REST API using Express.js, MongoDB, and Mongoose ODM.
- Created custom authentication middle-ware which encrypts and decodes JWT's.

All other projects on GitHub.
